D. WHAT WOULD MAKE THIS MODULE MORE EFFECTIVE

- A bigger lecture room
- A breakfast gesture is positively appreciated. We could appreciate it if it would be serve as lunch to avoid traveling away. Rather lunch than breakfast.
- Provide tea and coffee throughout the day on Saturday as with Vaal and Potch classes. Lunch on Saturday.
- Class packed to capacity, no free movement of lecturer to all students. Need more or bigger class in future. Too many of us here. Otherwise well done to Prof much energy.
- Lunch.
- The number of learners should in form the size of the venue. More learners attend than the 34 seater venue. Health and safety risk. The code at the gate was also not working.
- Book is not effective in explaining.
- Extra weekend for the module.
- Get a bigger venue.
- The facilitator emphasized the tough points with practical exercises which is very commendable.
- Facility rather small.

Yours sincerely,

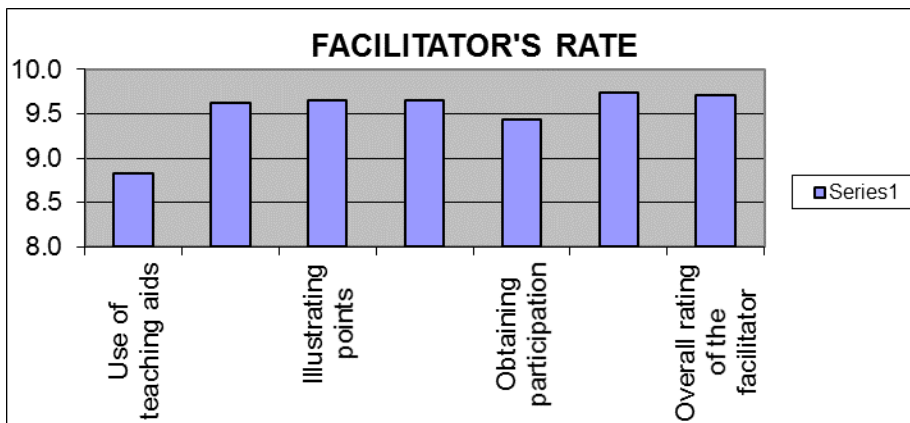

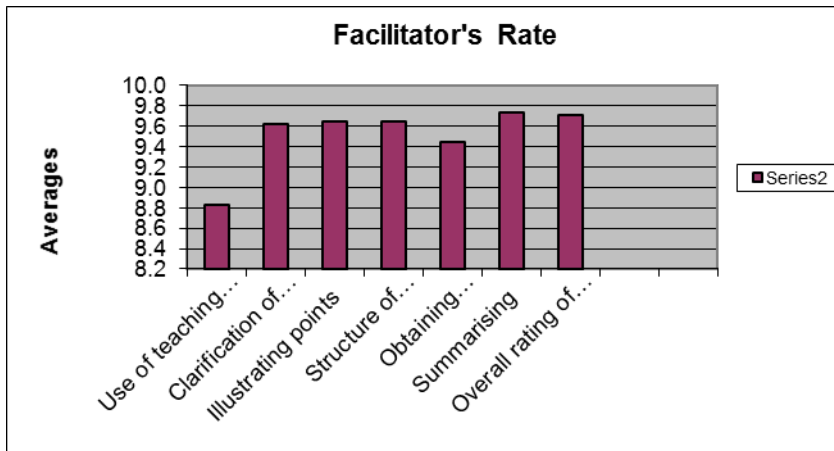

Puleng Mogwere
