

Ms Nthabeleng Tsotsotso

Group Chief Financial Officer at TEMI Group
(BCom Hnrs) (CA)

Nthabeleng completed her articles in 2015 through Ernst & Young, earning her qualification as a Chartered Accountant. During my articles I worked on the following clients: Telkom (full external audit); Howden Africa Holdings (US Reporting) (full external audit); Trans Africa Projects (full external audit); Bombardier Transportation (full external audit); Siemens Healthcare Diagnostics Pty Ltd (full external audit); Alcatel Lucent SA (full external audit); Flight Centre Travel limited (full external audit and agreed upon procedures); Zest Electric Motors Pty Ltd (full external audit); MSG Afrika Investment Holding (full external audit); Aveng Limited (full external audit); Air Traffic Navigation Services Ltd (full external audit).

From Ernst & Young she moved to Stefanutti Stocks, as the Senior Accountant for Civils and Group where she acquired knowledge into the construction sector during this journey. Moving on from Stefanutti Stocks, she joined Efora Energy, first as the Group Financial Manager and then got promoted to the position of Acting Group Financial Controller. With her past and current experiences, she has been able to understand the complex workings of Financial and Accounting management.

In August 2020, she decided to go back into working within the Construction sector in her new role as the Group Chief Financial Officer at TEMI Group. This journey has seen her use the skills acquired at Stefanutti Stocks and the senior management experience I acquired from Efora to assist in working towards building a financially sustainable and compliant organisation. She has been able to make recommendations to the Board and senior management on how to strategically make decisions that positively affect the TEMI Group cash flow and lead the Financial team.
